

3.1.3. Project Roles

A *project role* defines the responsibility or position that a person (like an employee or customer contact) holds within a specific project

Go to **Project Costing** **Master Data** **Project Roles**.

Description	Code
Business Analyst	00-0000003
Consultant	00-0000004
Project Coordinator	00-0000005
Project Manager	00-0000001
Project Sponsor	00-0000002
Stakeholder	00-0000007
Team Member	00-0000006

To add a project role, click **Create** on the toolbar. This opens the "Project Role (Create)" dialog box.

Project Role (create)

Save and close Save More actions ?

Description: Expert Code: <Auto>

To create a project role:

- Enter the name of the role in the **Description** field (e.g., Site Engineer, Project Manager).
- Click Save and Close to save the role and close the dialog box.
