

Transferring the software from one computer to another (self-hosted)

To transfer the software from one PC (computer) to another on your own, please follow the next steps:

1) Take a [backup](#) from old PC and transfer it to the new one.

2) On new PC download the FirstBit license centre from the link below.

<https://portal.firstbit.ae/~XgoKj>

3) Get a 1bit activation key following [License Request Process in FirstBit](#) instruction and send to Hotline by e-mail hotline@firstbit.ae, in addition provide Hotline the screenshot with version of software configuration.

In the top-right corner, go to Service and Settings About:

The screenshot shows the FirstBit ERP interface. The main content area displays 'Accounts Receivable on April 3, 2026'. There are two pie charts: 'Accounts Receivable' and 'Accounts Receivable Aging'. The 'Accounts Receivable' chart shows a total of 231,573.66 AED, with the largest portion (40.54%) from Bowbridge Software. The 'Accounts Receivable Aging' chart shows 98.72% of receivables are due within 7 days. A table lists the accounts receivable by company, with Bowbridge Software having the highest debt at 95,000 AED. In the top-right corner, a menu is open, and the 'About...' option is highlighted with a red box.

The screenshot shows the 'About 1C:Enterprise' dialog box. The dialog box contains the following information:
